

Andrew Smith

South Point, OH | 740.547.9443 | smithdrew867@gmail.com

Objective

Seeking a position to apply programming skills, problem solving, and analytic thinking in the field of software engineering. Eager to grow within a collaborative and innovative environment.

Education

Marshall University | *Bachelor of Science in Computer Science* | 2025

Relevant Coursework:

Data Structures and Algorithms, Object-Oriented Programming, Software Design Principals, Cybersecurity and Networking Principals.

Experience

**Telecommunications Technician | Southern Ohio Medical Center
2025 - Present**

- Program and maintain PBX Meridian CS1000 systems, including configuring and deploying new telephone extensions.
- Manage and configure telephony systems using Avaya Communications Manager, Avaya Manager, and CX-E Site Administrator for voicemail.
- Maintain enterprise VoIP infrastructure utilizing SIP, PRI, analog, and T1 circuits to ensure reliable voice communications.
- Coordinate directly with service providers (Frontier/Carousel/Spectrum) to troubleshoot and resolve voice and data network issues.
- Provide end-user support for telephony hardware, voicemail, and related system issues, ensuring minimal downtime.

IT/Software Developer Internship | Special Metals Corporation 2023 - 2025

- Provide comprehensive support for software/hardware issues including workstation installations and repairs, network equipment maintenance, and cable structuring.
- Internal tools of Inventory Management developed through ASP.NET (Razor and MAUI) to streamline workflow and productivity.
- Monitor and maintain LAN performance, including switches, access points, IP addressing, and VLAN management.
- Manager servers, virtual machines, and user accounts supporting IT infrastructure through Service Now.

Projects & Experience

- **Inventory Management Application(ASP.NET Razor/C#)** - Track inventory for company use, improving record-tracking and operation efficiency, managed through Azure DevOps.
- **Study Abroad Web Application (ASP.NET Blazor/C#)** - Web application to help students explore study abroad opportunities in the United States. Using Postmark API for email form delivery.
- **Personal Portfolio (Ruby on Rails)** - Personal web application for projects, experience, and interests.
- **Patient Portal Web Application (ASP.NET Blazor/C#)** - Medical web portal for patient and provider management using ASP.NET, integrating MySQL for database storage and retrieval
- **Rocket Labs (Unity/C#)** - Unity 2D educational game to develop engineering and physics skills.
- Remote Troubleshooting, Site Administration, Vendor Coordination
- Cross-Team collaboration between departments

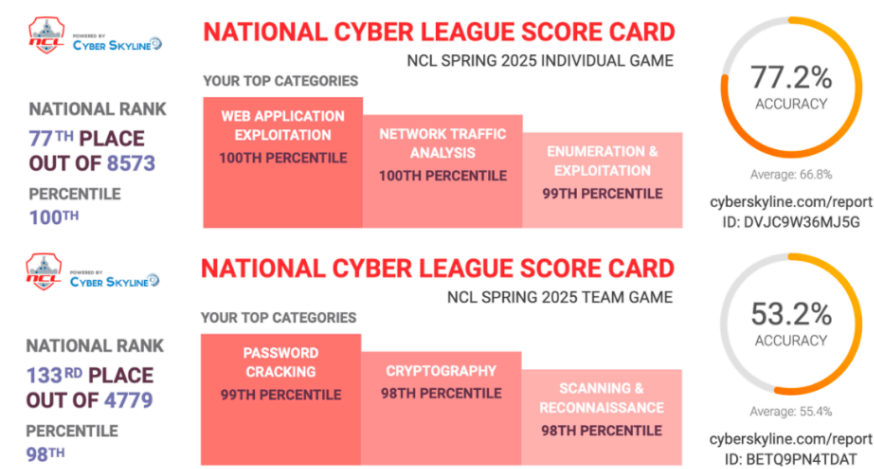

Technical Skills

- **Computer Languages:** Java, C#, Python, Ruby, JavaScript
- **Frameworks:** ASP.NET (Blazor, Razor, MAUI), Rails, Unity(C#), Xcode
- **Databases:** MySQL, SQL Server, Microsoft Access
- **Tools:** HTML/CSS, RESTful APIs, Linux, Virtual Machines, Azure DevOps, GitHub, PowerShell

Certifications

National Cyber League (NCL) Certifications | Spring 2025 Individual & Team Game

- National Rank: 77 / 8,573 (Top 1%)
- Accuracy: 77.2% | Certification IDs: DVJC9W36MJ5G, BETQ9PN4TDAT
- Top Skills: Web App Exploitation (100th), Network Traffic (100th), Enumeration & Exploitation (99th)
